

Sony Ericsson

How to pair my Bluetooth™ Headset/Handsfree HBH-30/-35/-60/-65/-200/-300/-600/-602/-608/-610/-660/-662 with a D750

Pairing, sometimes called bonding/adding, two devices with each other means that both devices will work together when switched on and within range. Pairing is done once and normally there is no need to repeat this procedure. Please follow the description below. Note that the description for preparing your phone is found at the end.

HBH-30/HBH-35/HBH-60/HBH-65 (NOT the HBH-200)

1. Make sure that the headset is fully charged, switched on and within 1 m (3 ft) of the phone.
2. Press the **CALL HANDLING BUTTON** for approximately 5 seconds until you hear a long high frequent beep and the light flashes red and green. The headset is now in "Pairing mode".
3. Prepare the phone according to the description below.

HBH-200

1. Make sure that the handsfree is fully charged, switched on and within 1 m (3 ft) of the phone.
2. Enter the menu in the HBH-200 by pressing the **ON/OFF BUTTON** and the **CALL BUTTON** (the round button on the side) at the same time quickly.
3. Use the **+** or the **-** button and scroll to **ADVANCED** and press the **CALL BUTTON** to confirm.
4. Select **NEW PHONE** and press the **CALL BUTTON**.
5. In the HBH-200 display, **READY TO ADD – PREPARE PHONE** appears.
6. Prepare the phone according to the description below.

HBH-300/-600/-602/-608/-610

1. Make sure that the headset is fully charged, switched on and within 1 m (3 ft) of the phone.
2. The first time you turn your headset on, it immediately goes into pairing mode. The light flashes red and green. If so, please proceed to the phone instructions below.
3. To manually prepare the headset, press the two **VOLUME BUTTONS**, (**+**) and (**-**), at the same time for approximately 5 seconds until you hear a long high frequent beep and the light flashes red and green. The headset is now in "Pairing mode".

Sony Ericsson

HBH-660/-662

1. Make sure that the headset is fully charged, switched on and within 1 m (3 ft) of the phone.
2. The first time you turn your headset on, it immediately goes into pairing mode.
There are three symbols showing in the headset display: a headset, two rotating arrows and a phone.
If so, please proceed to phone instructions below.
3. To manually prepare the headset, press the two **VOLUME BUTTONS**, (+) and (-), at the same time for approximately 5 seconds, until you hear a long high frequent beep. There are three symbols showing in the headset display: a headset, two rotating arrows and a phone. The headset is now in "Pairing mode".

D750

1. Enter the main menu, scroll to **SETTINGS**, and select the **CONNECTIVITY** tab.
2. Select **BLUETOOTH, MY DEVICES**.
3. Select **NEW DEVICE, Add**.
4. The phone starts searching for devices. Make sure that the headset is in pairing mode.
5. When the HBH-xxx becomes visible in the **DEVICES FOUND** menu, highlight it and press **Select**.
6. Enter the **PASSKEY** (0000 by default) and press **OK**.
7. HBH-xxx is now added to the list of paired devices and is ready to use.
